*How does it represent you?*

An eagle soaring high in the sky represents me perfectly. It symbolizes clarity of vision, determination, and the ability to adapt and rise above challenges, aligning with my approach to life and education.

### 3 What's your "life hack" for staying positive or overcoming challenges?

✦  
I embrace the mantra "Sky is the limit"—focusing on possibilities rather than problems. Reflection, faith, and surrounding myself with like-minded, uplifting people help me navigate challenges with confidence.

Transformation.  
Because it equips  
individuals with the  
tools and mindset to  
turn setbacks into  
stepping stones,  
fostering growth and  
self-awareness.

**5** *What's a lesson or perspective from Magical Rafi or the workshops that has stayed with you and why?*

The principle of state management has been life-changing.

Understanding how to control my emotional state in any situation has helped me lead with confidence and inspire others to do the same.
